

PipeCut Pro Series 460

NEW PRODUCT!

WEIGHT

PIPE DIAMETERS

100 MM - 460 MM

MAX PIPE WALL

Cut heavy-duty pipes
Cut pipe Ø up to 460 mm
Cut all pipe materials
... easy, safe and fast!

Exact PipeCut 460 Pro Series is a groundbreaking new, most advanced pipe cutting machine of the Exact's Pro Series product family. Intended for heavy-duty, large and medium pipes. You will effortlessly make straight and precise pipe cuts on all pipe materials. Like the other Exact machines, it is extremely safe and easy to use as a result of the well designed mechanics. The machine is portable and can be easily carried to where the cuts need to be done. You can cut steel pipes with wall thickness of (up to) 20 mm and 50 mm for plastics. Suitable on pipe diameters 100 - 460 mm. The incredibly strong motor along with other features and patented gripping unit makes a real timesaver on the worksite, boosting productivity and leaving more time for other work.

20 YEARS OF EXPERTISE

Over 20 years of expertise in developing pipe cutting and finishing tools has resulted in probably the most advanced pipe cutting systems ever made.

EXTREMELY SAFE!

One of the main benefits is extreme safety of the machine.

QUICK (AND PRECISE) PIPE CUTTING

Quick and easy-to-use Exact pipe cutters significantly improve work efficiency. The results are of higher quality and achieved faster as compared to former methods.
