

GP 230 Wafer Butterfly Valve

Pressure & Temperature

Max Working Pressure: 16 Bar
 Hydraulic Shell Test Pressure: 24 Bar
 Hydraulic Seat Test Pressure: 17.6 Bar
 20 Bar at: -10°C to 120°C
 Suitable Media: Water, Oil, Gas
 Rated at 20 Bar working pressure cold water only

Dimensions

Size	A mm	B mm	C mm	D mm	Do mm	E mm	F mm	K mm	J mm	H mm	L mm	Wt Kg.
50 mm	191	80	42	53	58	115	115	145	110	8	90	8.3
65 mm	203	91	45	53	73	115	115	145	110	14	110	8.3

Material Specification

Item	Material	BS	ASTM
Body	Cast Iron	1452 Gr220	A126 Cl.B
Disc	Stainless Steel	1507 S31 C16	A351 CF8M
Shaft	Stainless Steel	970 416 S21	AISI 416
Bushings	PTFE		
Liner	EDPM		
O-rings	EDPM		

Notes

1. Conforms to BS EN 593, MSS SP-67
2. Bolt circles are carefully designed to fit the following flange types:
BS EN 1092 PN16, BS 10 D/E, ANSI 125
3. Top Flange conforms to ISO 5211/1
4. Gearbox supplied as standard with gear operator, position indicator and tamper switch
5. The gearbox is located onto the valve flange plate via a locking pin. This ensures that the gearbox can only be mounted with the position indicator in line with the valve disc.
6. Supplied complete with 300mm chain to secure handwheel to valve body.
