PipeBevel 220E

*Always good bevel result
in on-site conditions*

WEIGHT

6.7
kg

RANGE OF USE

25MM – 220MM

MAX PIPE WALL

STEEL
10MM

SUITABLE FOR

STEEL
ALUMINIUM AND
STAINLESS STEEL

VOLTAGE

220 – 240V/50–60 Hz

PipeBevel 220E

I Voltage/Power/Current	220 – 240 V 1400 W 6.1 A
No-Load speed	7000 – 10500 r/min
Blade holder diameter	48 mm
Different bevel angles	30° 37,5° 45°
Speed preselection	

Professional Pipe Beveller for on-site welding applications

Continuous good results for on-site pipe bevelling applications with Exact's PipeBevel 220E you can easily make fast and accurate welding bevels to pipes in a variety of materials. The user interface of the machine is similar to Exact pipe saws, which makes it easy for the operator to adapt after cutting the pipe with any Exact pipe saw. The cutting head of the beveller has 3 cutting tips, each of them having 4 cutting edges to rotate once becoming blunt, so it is economical to use. The cutting heads are available in most commonly used bevel angles (30°, 37,5° and 45°). It is also possible to make different 'tailored' bevel angles if required. There is also a stopper feature, that enables the operator to make similar additional bevels to the same pipe O/D.

PRICE INCLUDES:

PipeBevel 220E beveller, Cutting head in desired angle (30°, 37,5° or 45°), Shoulder bag, Pipe support x 2, Instructions, Allen key 5mm, DVD-video.
