

Sub Miniature Solenoid Valves

[Submini 3-Way Solenoid Valves](#)
(576)

3-Way PTFE Subminiature Solenoid Valve configuration options:

- * Nine Port Styles to choose from: #10-32-UNF, 1/4"-28-UNF, 1/16" FNPT/Tube, 1/8" FNPT/Tube, 1/4" FNPT/Tube/Flare
- * Four Actuation Coils to choose from: 115VAC, 24VAC, 12VDC, or 24VDC
- * Four O-Ring Seat Seals to choose from: EPDM, Viton, Alfes or Kalrez
- * Four Body-Port Orientations to choose from: 132, 123, 213, or 321

The all PTFE wetted design is ideally suited for semiconductor, pharmaceutical, bio-medical and chemical process applications where ultraclean and highly corrosive media are present.

(288)

2-Way PTFE Subminiature Solenoid Valve configuration options:

- * Nine Port Styles to choose from: #10-32-UNF, 1/4"-28-UNF, 1/16" FNPT/Tube, 1/8" FNPT/Tube, 1/4" FNPT/Tube/Flare
- * Four Actuation Coils to choose from: 115VAC, 24VAC, 12VDC, or 24VDC
- * Four O-Ring Seat Seals to choose from: EPDM, Viton, Alfes or Kalrez
- * Two Body-Port Configurations: Normally Closed and Normally Open

The all PTFE wetted design is ideally suited for semiconductor, pharmaceutical, bio-medical and chemical process applications where ultraclean and highly corrosive media are present.
