

TEFLON ASPIRATOR

Liquid Actuated

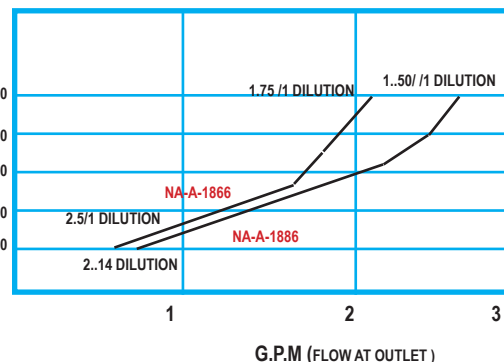

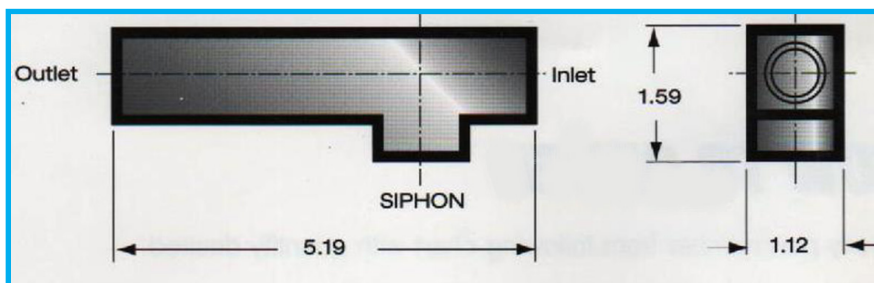

NACOM'S PTFE LIQUID ACTUATED ASPIRATOR is designed for efficient and rapid siphoning of hard to handle chemicals.

City or D.I water at pressures from 10-50 PSI or more will cause aspiration of viscous acids such as HF and H₂SO₄.

Machined from virgin PTFE, these rugged Aspirators may be ordered individually or in a kit form.

Specifications

How to Order

Part Number	Description	Inlet Port	Siphon Port	Outlet Port
NA-A-1866	Aspirator 3/8 suction	3/8 FNPT	3/8 FNPT	1/2 FNPT
KNA-A-1866	Aspirator 3/8 suction Kit std. 1	3/8 FNPT	3/8 FNPT	1/2 FNPT
KNAA1866CHK	Aspirator 3/8 suction Kit w/ Chk valve	3/8 FNPT	3/8 FNPT	1/2 FNPT
KNAA1866PRO	Aspirator 3/8 suction Kit Poly ftgs	3/8 FNPT	3/8 FNPT	1/2 FNPT

AW-11866 Aspirator 3/8 suction Wand POLY

NA-A-1886	Aspirator 1/2 suction	3/8 FNPT	1/2 FNPT	1/2 FNPT
KNA-A-1886	Aspirator 1/2 suction Kit std. 2	3/8 FNPT	1/2 FNPT	1/2 FNPT
KNAA1886CHK	Aspirator 1/2 suction Kit w/ Chk valve	3/8 FNPT	1/2 FNPT	1/2 FNPT
KNAA1886PRO	Aspirator 1/2 suction Kit Poly ftgs	3/8 FNPT	1/2 FNPT	1/2 FNPT

AW-21886 Aspirator 1/2 suction Wand POLY

KIT 1 Aspirator 1866, Handle, 3 Teflon ftgs mounted on each port, and 8 feet of PTFE Tubing

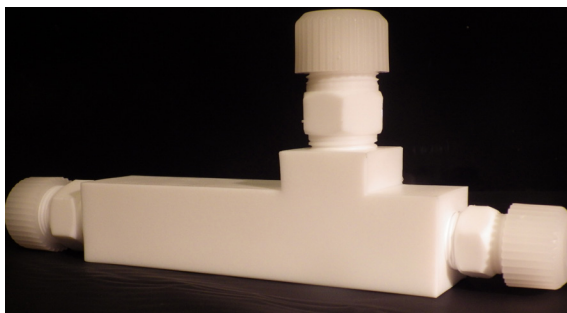

KIT 2 Aspirator 1886 Handle, 2 Teflon ftgs mounted inlet and outlet ports, a Teflon Check valve mounted to siphon port, and 8 feet of PTFE Tubing

A typical Kit contains one ea PTFE ASPIRATOR, 3 PTFE Fittings, and 8 feet of PTFE Tubing

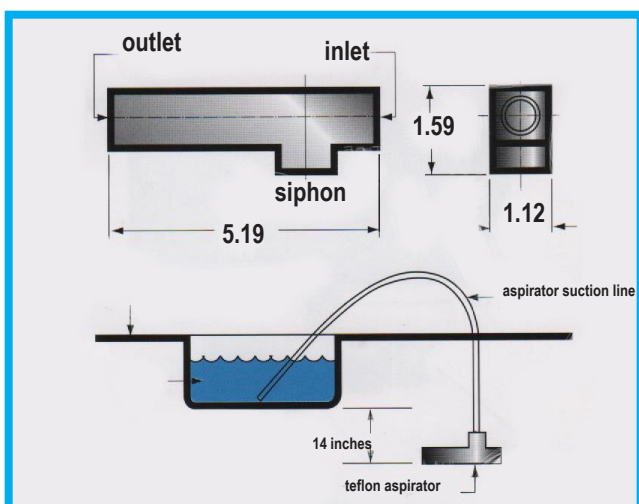

Air Actuated

NACOM'S AIR ACTUATED PTFE ASPIRATOR is designed for a smooth siphoning on hard to handle chemicals while eliminating chemical dilution common to the liquid actuated aspirators.

Since this unit economically operates on air, the media being recirculated and re-cycled. In essence this aspirator acts as a low cost PTFE pumping device
