Pinch Valves PL Series

Characteristics

The PL series is a pinch valve adopting a latching solenoid, which maintain the valve open or closed state through the utilization of a permanent magnet. It contributes to low power consumption, because electricity is consumed only when energized.

Specifications

Method	Solenoid	
Tubing inner diameter（mm）	0.8 - 2.0 mm	
Tubing outer diameter	2.4 - 4.0 mm	
Tubing material	Silicone	
Type	2way-NC, 2way-NO, 3way	
Operating pressure range	0～150 kPa	You can choose the pressure unit. kPa
Rated voltage	12VDC, 24VDC	
Power consumption	8 W	
Operating duration	Intermittent	
Outer dimensions	30.4 x 30.4 x 61.7 mm	
Ambient temparature range	0 ～ 40 ℃
