SAMPLING VALVES

METAL SEATED SAMPLING VALVES

M SEAL

This sealing system offers a wide range of material combinations selected to create a differential hardness between body and plunger seat. The maintenance friendly design of the **M Seal** system provides long and reliable valve performance and is suitable for almost all process conditions.

- **Temperature:** Min.: -200°C / -330°F
Max.: 540°C / 1000°F
- **Pressure:** ANSI 600: 100 bar / 1440 PSI max
ANSI 1500: 250 bar / 3600 PSI max

In order to keep abreast of customer requirements, Strahman has developed a Metal Seated Sampling Valves for use in ANSI Class 600, 1000°F applications. This valve is dimensionally identical to the Strahman SV Series of Sampling Valves which are the world-wide standard for industrial sampling. A special fabricated bar-stock design is available for ANSI 1500, 1000°F service.

- Piston moves through the valve clearing out any material that may solidify within the body
- Piston extension breaks through scale or crust
- No dead spot - piston fills valve interior
- Always gives a true live sample
- 316 stainless steel body is standard. Also available: Alloy 20, Hastelloy, Titanium, Nickel and Monel
- Threaded, flanged, SW ends to US Standards, DIN BSP, JIS with manual, electric, air actuation
- Lever operated, quick-opening design available

METAL SEATED SAMPLING VALVES SPECIFICATIONS

The Sampling Valve shall be Model SV ¾" MNPT inlet* by ¾" or ½" FNPT outlet*. The body shall be of investment cast 316 SST and internals of 316 SST fabricated wetted parts. The valve shall be a hard seal design and shall meet ANSI Class IV shutoff. The piston shall have linear travel with mutli-turn handle for manual operations, or pneumatic/hydraulic cylinder actuator. The piston shall fill the valve interior allowing for no cavities (dead space), will be self-pigging and will not clog. The Sampling Valve will assure new product samples are always taken with no prior material remaining. The piston shall have a _____" extension that shall extend beyond the threaded inlet to break through any product crust, insuring proper product flow.

* Flanged or SW connections available

_____ " Customer to specify

VALVE DECK DETAIL

Dimensions							
Valve Size	A CLOSED	A OPEN	C	D	E	G NPT	H NPT
SV-7HS	11-7/8"	14-3/8"	.531"	1-7/8"	3-1/32"	3/4"	1/2", 3/4"
SV-8HS	13-1/8"	16"	.688"	2-3/8"	3-5/8"	1"	3/4", 1"

Part No.	Description	Material
1	BODY †	316 SST
2	PISTON *†	316 SST
3	PACKING	GRAPHITE
4	GLAND	304 SST
5	BONNET	304 SST
6	STEM	416 SST
8	CRANK HANDLE	M. IRON
9	LOCK NUT	304 SST
10	BONNET BUSHING	BRONZE
11	BUSHING LOCK SCREW	304 SST
12	BONNET NUT	303 SST
13	BONNET STUD	304 SST
14	SPRING WASHER	17.7 PH
15	GLAND NUT	303 SST
16	GLAND STUD	304 SST

SAMPLING VALVES

Strahman has a full line of sampling valves that produce live samples without exception. Our sampling valves unique designs prevent failure caused by sediment or clogging.

DRAIN VALVES

Strahman Drain Valves are designed to prevent clogging. They are ideal for use in liquid and gas service or with slurries, polymers, and high viscosity fluids that tend to solidify at room temperature.

LINE BLINDS

Strahman Line Blinds provide zero leakage down stream and total isolation on process pipelines, vessels and maritime applications. No pipeline movement is required when blind position is changed.

AUTOMATED VALVES & FIRE SAFE PRODUCTS

Strahman automated valve packages with floating ball valves and resilient seated butterfly valves come complete with electric or pneumatic actuators for a wide array of industrial applications. Additionally, a full suite of API 607 fire safe valve products are offered as actuated units or to be used in conjunction with our FM approved thermal shut-off assemblies. Resettable Emergency Block Valves (R-EBV) are also available for the oil & gas and chemical industries.

WASH DOWN EQUIPMENT

Strahman offers a full line of mixing units, hose stations, hoses, nozzles and wash down accessories. Our wash down line is designed for industrial use and is used in a wide variety of industries including food, beverage, pharmaceutical, chemical and other applications.
